

# Captain Manifesto

George Padolsey

Proposer: Calum Spooner

Second: Molly Agar

A photograph of a person in a blue kayak on a body of water, with a green hill in the background. A large, stylized yellow 'George' is written across the image, partially obscured by a blue diagonal line.

# George

I'm George, a First-Year Natural scientist who spends all my time kayaking.

Like others at the club I am fully invested with ensuring the clubs longevity and fun spirit!

I understand the challenges facing us in terms of recruitment and wish to build a new and renewed member base.

Knowing the fun of canoeing from a young age I know how it can build a great community spirit, one I wish to further here.

## Essentially, why me?

- Continually organised and able to recruit / bribe new members.
- Always listen to feedback and would want to promote new ideas.
- Kayaking would be my priority; not being in a final year would extend the amount of time available for club activity.

## Eager to drive new DUCClings to join, I would champion:

- A bigger display at Fresher's Fair
- Longer time to diversify into white water / polo
- Organising more pool taster session / college taster sessions

Top most, I want to continue Calum's cake precedent and will endeavour to discover new bulks of cake based confectionary to bring to exec meetings.
