

Jasz – Polo Captain

For those of you who don't know me I'm a third year anthropologist so luckily I have a pretty low intensity course teaching time meaning lots of time for other fun polo procrastinations.

I started playing polo as it was what my friends in the club did, as time went on I enjoyed it for the sport as well but my main motivation will always be having fun. I would love to encourage others to enjoy this sport as well as see themselves develop into wicked players. I also seem to spend quite a lot of my weekends if not playing, supporting a team playing. I have watched some very high level polo as well which has definitely been advantageous to my understanding of the sport. My strengths definitely include cheering and encouraging others to do their best and enjoy the sport as much as possible

After playing for four years I have participated in many tournaments and in two bucs ladies teams achieving second and first place. I've competed at national div 1 open and ladies and got 2nd place in both as well as finishing 2nd in two international competitions in the last year.

I would like to be the captain as I am fun, approachable and I think I can easily talk to the coach with any suggestions I have to help him out. I would like to help Dan develop people in Yorkshire league, morning training and Wednesday sessions etc to see people grow and develop in the sport.

Aims

- To support the coach with anything that he deems necessary
- Encourage people to participate and develop with a fun loving attitude
- Support the teams with cake, warm towels, encouragement and food where necessary

Proposer: Parisa

Seconder: Alex
